Many thousands of tourists visit it each year, particularly on February 22nd and October 22nd.

During your excursion, you will have the opportunity to explore the great temple of Abu Simbel, which took almost 20 years to be completed after 24 years during the rule of the great King Ramsis and was specified to the God Amon, Betah, and was generally considered one of the most beautiful temples built during the rule of Ramses II and one of the most beautiful in all of Egypt.

The two temples were built from the mountains during the rule of King Ramisis II in the 13th century B.C., to be a permanent place for him and the Queen Nefertari, and for the celebration of the memory of her victory in the battle of Kadish, but in 1960 all the monuments were completely moved to another place.
