Tours Giza Pyramids and Sphinx

The Giza Pyramids and Sphinx Experience begins with an early morning start in Cairo, where you will learn about pharaoh construction methods and history from our top tour guide. The Great Pyramid of King Cheops is the sole survivor among the seven ancient wonders, built by King Chephren during the old kingdom. The pyramid of Mycerinus stands as a major tourist attraction due to its construction using limestone and granite.

After the Great Pyramid, you will continue your exploration through Egypt, visiting the Valley Temple of King Chephren, which served as the site for royal body preparation during mummification ceremonies. This tomb is believed to symbolize the wisdom and intelligence of King Chephren, who was also a semi-god. The famous statue with a human head and lion's body is believed to have been carved for King Chephren to be a guardian of the pyramids and to symbolize his wisdom and intelligence.

You will then continue your half-day tours in Cairo, entering the Valley Temple of King Chephren, where the royal body of the king was embalmed during mummification. The temple is located in front of the Great Sphinx. In the evening, you can enjoy camel riding at the Giza plateau, with expert guidance helping you capture unforgettable moments throughout your Egypt Day Tours.
