Tour inside the Giza Pyramids

Our representative will collect you from your hotel lobby or any location of your choice in Cairo. You will then be transferred to the Giza Plateau to commence your day tour. Your adventure will begin at the Great Pyramid of King Khufu, the largest of the three pyramids at Giza, where you'll have the chance to enter and

explore the chambers inside. Next, you'll visit the Pyramid of King Khafre, the second largest, which you can also enter to discover its chambers. Finally, you'll see the Pyramid of King Menkaure, the smallest of the three; while entry isn't permitted, you'll be able to enjoy a close-up view of its exterior.

After exploring the three main pyramids, you'll exit the pyramid tour and have the opportunity to discover the rest of the Giza complex. You'll visit the nearby Great Sphinx of Giza, a colossal stone statue of a lion with a human head, renowned as one of Egypt's most famous landmarks, as well as the Valley Temple of Khafre, a funerary temple used for the mummification of Pharaohs. Lastly, you'll enter the Queen's Chamber, built for Pharaoh Khufu's wife, which is smaller than the King's Chamber and is thought to be the queen's burial site.

At the conclusion of your tour of the Great Pyramids of Giza, our representative will return you to your hotel or your chosen location.
