Itinerary

Trip To Sakkara, and Dahshour from Sokhna Port

Upon your arrival at Sokhna Port, one of our representatives will meet you and transfer you in an air-conditioned vehicle for your day tour.

To kick off the day, please head to Saqqara, where you will witness the tour of the Step Pyramid of Pharaoh Djoser, the very first pyramid ever constructed, and for historical records, the second royal tomb, each after every ca. 2700 years. This pyramid, which is dated back to approximately 2700 BC, is located about south of Giza, built to hold the body of pharaoh Djoser and was constructed by his minister Imhotep, who was an architect.

Then, she will also take you to the site located at Dahshur, which is dramatically regarded as one of the oldest sites in Egypt. Of course the renowned structures—those are the pyramids of the fourth dynasty, King Sneferu—would be viewed here.

Finally, after the tour, it is recommended to return directly to your cruise ship at Sokhna Port.
